01 STRATEGIC OVERVIEW

Three Videos. One Vision.

FENEX doesn't just manufacture oversized glazing systems — they engineer solutions that push the boundaries of what's possible. These three strategic videos showcase the technical excellence and innovative vision that define the brand.

01	The Impossible Window Engineering Breakdown	Case Study	Architects, engineers, developers	90s
02	Engineering Extremes Specs Showcase	Specs Video	Decision makers, specifiers, facility managers	60s
03	Portfolio of Precision High-End Showcase	Portfolio	Premium clients, brand awareness	45s

02 VIDEO 1

The Impossible Window

Engineering Breakdown — 90 Seconds

A deep-dive case study showcasing FENEX's technical capabilities through the Bottega Veneta Miami Design District project. When luxury retailer Bottega Veneta needed a curved glass entrance for their Miami flagship, they turned to FENEX. The challenge: create an 8-foot wide, 16-foot tall impact-rated window system with a custom S-shaped curve. The result won the 2020 Product Innovation Award from Architectural SSL Magazine.

Target Audience	Architects, engineers, developers
Objective	Demonstrate technical leadership and engineering excellence
Dimensions	8'-0" W × 16'-6" H — Curved S-shape glass system
Certifications	FL#20700.2 — Impact & flood resistant — Category 5 hurricane rated
Recognition	Architectural SSL Magazine — Product Innovation Award 2020
Location	Bottega Veneta Flagship, Miami Design District

FULL SCRIPT — 90 SECONDS

[00:00–00:05]	Open	"Miami Design District. Bottega Veneta. Same block as Gucci and Rick Owens."
[00:05–00:12]	The Challenge	"The challenge: Create a curved glass entrance system. Eight feet wide. Sixteen feet tall. Impact-rated for Category 5 hurricanes."
[00:12–00:25]	Technical Breakdown	"This isn't a standard window. It's a custom aluminum curved system with S-shaped insulated glass." Motion graphics: Technical drawings overlay with animated specs.
[00:25–00:35]	The Engineering	"Flood-resistant. Impact-resistant. Structurally glazed for a seamless appearance." Motion graphics: Hurricane/flood resistance visualizations.
[00:35–00:50]	The Result	"The result: A one-of-a-kind entrance that redefines what's possible in oversized glazing."
[00:50–01:05]	The Recognition	"In 2020, this project won the Product Innovation Award from Architectural SSL Magazine."

[01:05–01:15]	The Specs	"Custom aluminum framing. Insulated impact glass. Pre-glazed. Pre-drilled. Installed in sections."
[01:15–01:25]	The Statement	"Because beyond the view, there is the vision of the future."
[01:25–01:30]	End Card	FENEX logo + tagline + contact info

PRODUCTION TIMELINE

Phase 1: Creative Development	Week 1	Script finalization, creative direction, asset gathering, storyboard, motion graphics, blueprint animations, edit V1
Phase 2: Refinement & Delivery	Week 2	Professional voiceover & music integration, client review session, revision rounds, final delivery in all formats (16:9 / 1:1 / 9:16)

03 VIDEO 2

Engineering Extremes

Specs Showcase — 60 Seconds

Numbers that impress, visualized dynamically. This video showcases FENEX's most extreme capabilities through motion graphics simulations and real project footage.

Target Audience	Decision makers, specifiers, facility managers
Objective	Competitive differentiation through superior capabilities
Duration	60 seconds

SCRIPT OUTLINE

Hook: "132 square feet of glass. In a single panel."

Hurricane Resistance: 120 PSF load — Category 5 rated

Flood Resistance: 10 ft design flood elevation

Additional Capabilities: Fire resistance, bullet resistance (UL Level 8), walkable skylights

Closer: "FENEX. Engineering what others say is impossible."

KEY TECHNICAL SPECIFICATIONS

Max Panel Size	132 sq ft
Hurricane Load	120 PSF resistance
Flood Elevation	10 ft design flood elevation
Bullet Resistance	UL Level 8
Flood Testing	FM Global 2510 approved
Walkable Skylights	Building envelope rated

VISUAL APPROACH

- Wind/debris impact animations
- Flood water level rising visualizations
- Multi-layer glass cross-section reveals
- Spec callouts over real project footage

04 VIDEO 3

Portfolio of Precision

High-End Showcase — 45 Seconds

A cinematic showcase of FENEX's work with world-class brands and landmark projects. No voiceover — just stunning visuals, elegant transitions, and premium positioning.

Target Audience	Premium clients, brand awareness
Objective	Aspirational positioning and top-of-mind recall
Duration	45 seconds
Voiceover	None — music carries the emotion

FEATURED PROJECTS

	
Tiffany & Co.	Miami Design District
Bottega Veneta (PIA '20)	Miami Design District
Fendi	Miami Design District
World Trade Center	New York City
Private Residence	Siesta Keys, Florida
Jersey City Medical Center	New Jersey
Flood Mitigation Projects	Venice, FL & Battery Park, NYC

VISUAL APPROACH

Pacing	4–5 seconds per project
Text	Minimal overlays — project name + location only
Transitions	Liquid motion or geometric wipe
Close	FENEX logo + tagline

05 INCLUDED ADD-ONS

Beyond the Three Core Videos

This package includes premium add-ons designed to maximize the value and versatility of your content investment. Both are included at no additional cost.

PRESENTATION-OPTIMIZED VERSION

Value: \$500 — Included

One video of your choice adapted specifically for large-scale presentations, trade shows, and convention displays.

Resolution	3840×2160 (4K) standard projection or custom aspect ratios
Display	Large LED screen display
Loop	Loopable versions for pre-show environments
Audio	No-audio versions for presenter-led contexts
Use Cases	Trade show booth displays, client presentation decks, showroom installations, lobby screens

BRAND ANIMATION SUITE

Value: \$1,000 — Included

A complete set of FENEX logo animations for use across all marketing materials and video content.

Logo Intro (5s)	Blueprint-style construction animation
Logo Outro (3s)	Clean sign-off with tagline
Logo Loop (10s)	Seamless alpha channel loop
Formats	MOV (alpha channel), MP4, GIF — multiple size variations
Use Cases	Video opens/closes, presentations, email signatures, social media, website headers

06 INVESTMENT

Complete Content Package

\$8,500 USD

All-inclusive — 195 seconds of premium content, 12 format variants, brand suite.

Item	Value
Video 1: The Impossible Window (90s, heavy motion)	\$3,500
Video 2: Engineering Extremes (60s, heavy motion)	\$2,800
Video 3: Portfolio of Precision (45s)	\$2,200
Brand Animation Suite (intro / outro / loop)	\$1,000
Presentation Optimization	\$500
Multiple Format Versions (12 total exports)	\$1,000
Creative Direction & Scripting	\$1,500
Total Value	\$12,500
Package Investment	\$8,500
Your Savings	\$4,000

PAYMENT STRUCTURE

Deposit	\$4,250 (50%)	Upon contract signature	Secures timeline, initiates creative development
Milestone	\$2,125 (25%)	Delivery of Video 2	Confirms satisfaction, releases Video 3 production
Final	\$2,125 (25%)	Final delivery	Complete package with all assets, organized file structure

Accepted payment methods: Bank transfer / Wire — PayPal — Credit card (via invoice). All payments in USD. Prices valid through March 7, 2026.

07 PRODUCTION SCHEDULE

8-Week Timeline

The Impossible Window	1–2	Creative development, script finalization, motion graphics, edit V1, client review & delivery
Engineering Extremes	3–4	Motion graphics, technical simulations, client review, revisions, final delivery in all formats
Portfolio of Precision	5–6	Edit V1, music selection, color grading, client review, revisions, final delivery in all formats
Brand Suite & Optimization	7–8	Logo animations (intro/outro/loop), presentation version, final optimizations, complete delivery package

MULTI-PLATFORM OPTIMIZATION

Every video delivered in multiple formats.

16:9 Landscape	3840×2160 (4K), 23.976fps	YouTube, website, LinkedIn
1:1 Square	1080×1080, 23.976fps	LinkedIn feed, Instagram feed
9:16 Vertical	2160×3840 (4K), 23.976fps	Instagram Stories, TikTok, Reels
Presentation	3840×2160 (4K) or custom	Trade shows, client presentations

08 LEGAL & NEXT STEPS

Formalization & Confidentiality

This project will be formalized through a set of agreements to protect both parties and ensure a clear, professional engagement:

Master Services Agreement (MSA)

Outlines scope, deliverables, and terms of engagement.

Mutual Non-Disclosure Agreement (NDA)

Protects proprietary information shared during production.

Usage Rights Agreement

Defines content ownership and licensing terms.

Documents will be provided upon acceptance of proposal. All work is confidential until public release is authorized by FENEX.

NEXT STEPS

Let's Build This

This proposal represents a strategic content investment designed to position FENEX as the undisputed technical leader in oversized glazing systems and flood mitigation. The question isn't whether this content will deliver value — it's how quickly you want to start seeing results.
